

Project Estimator/Manager

Job Description

Join one of the leading Wisconsin based regional construction contractors specializing in mass excavation, underground utility, and aggregate production services. We serve the local and regional Public Works, DOT and private commercial & residential infrastructure construction markets throughout Wisconsin and the UP of Michigan. We are currently seeking a Project Manager/Estimator to be based out of our Medford, WI corporate office. However, working from home and at a project location is normal. The ideal candidate will have experience creating proposals, quantifying plans, understanding project specifications, developing project schedules, and working with field crews to manage projects from preconstruction to completion.

Responsibilities

- Quantity takeoff abilities using various software packages
- Successfully bid and manage multiple WisDOT and municipal projects
- Work with a team of project managers to schedule crews and equipment
- Work with subcontractors to successfully schedule and complete complex projects

Qualifications

- Minimum 5 years' project estimating and management experience in DOT, residential and commercial sitework construction with emphasis in mass excavation, grading and sitework or a bachelors in CE or construction management.
- Knowledge of managing projects in the field.
- Strong business acumen in project planning and management
- Strong verbal, written, computer, organizational and leadership skills

We Value and Appreciate Our Employees:

- Base Salary DOE
- Excellent benefits to include medical, dental & vision
- 401k with company match
- Company vehicle + gas card
- Travel expenses paid
- Paid vacation and sick leave
- Annual bonuses based on individual and company performance
